

LAPORAN HASIL PENELITIAN EXPERT JICA

NO	JUDUL	EDITOR	TAHUN	Jmh
1	In Situ Study of Effects of elevated Temperature on Photoinhibition in Elght Tropical apioneer and tree Dipterocarp Species Subj: Physiological Characteristics of key Species	Atsushi ISHIDA	Sep-Dec 1998	7
2	Pioneer Stages of the Natural Recovery of a Tropical Rain Forest in Kutai National Park.East Kalimantan From A Great fire 1982-1983, and ideas of Rehabilitation of Forests Subj : Plantation and Regeneration Techniques for Forest Management	Hideo TAGAWA	Sep-Okt, 1999	11
3	Diurnal Leaf Gas Exchange and Chlorophyll fluorescence in Relation to leaf Angle, Azimuth and Within the Canopy of a tropical Pioneer Tree Subj: Physiological Characteristics of key Species	Atsushi ISHIDA	Dec'96-Feb'97	5
4	Ontogenetic Leaf display and Leaf Photochemical Capacity of Two Pioneer Euphorbiaceae Species in a Rainforest Subj: Physiological Characteristics of key Species	Atsushi ISHIDA	Sep-Dec. 1999	5
5	Effects of Forest From on the Dipterocarp Mycorrhiza Relationship to litter Deposition Subj: Plantation and regeneration techniques for forest Management	Tamio AKEMA	Aug-Sep 1999	10
6	The effect of Forest Fire on Soil Physical and Chemical Properties	Nagaharu TANAKA	Sep, 1999	6
7	Mycorrhiza and Their Utilization in Forestry	Makoto OGAWA	April, 1989	5
8	Change Detection og Land Cover Using Remote Sensing Data	Satoshi TSUYUKI	Nop-Dec. 1998	3
9	Seedling Growath of Eusiderixylon Zwageri the Bukit Soeharto Forest	Yoshiyuki KIYONO	Dec. 1996	8
10	Ectomycorrhiza Dipterocarps and the Utilization for Reforestation	Makoto OGAWA	Oct, 1996	3
11	Vertical Distribution of Insect Fauna on The Towers and cerambyod and Scolytid Befles Fauna in Bukit Soeharto Education Forest	Hiroshi MAKIHARA & Haruo KINUURA	Oct, 1996	3
12	Research on Regeneration Process in Secondary Forest of Tropical Rain Forest East Kalimantan	Yasuyuki OKIMORI	Marc. 1991	3
13	Refort on on Establishment and research forest by Group planting in Bukit Soeharto university Forest East Kalimantan	Susumu MYATAKE	Dec, 1988	8
14	Refort on Tissue Culture of Dipterocarpaceae	Katsuaki ISHI	Feb. 1988	5
15	Counstruction of Measurement System for Analyzing Photosyntesis and transpiration on of Trees	Tetsuo OKANO	May 1990	9
16	Changes in forest Structure after Selective Cutting at Kabupaten Pasir	Yuji ISAGI & P.Matius	Des, 1990	7

17	On measurement of Soil respiration	Kazuhiro MORISADA	Marc, 1991	5
18	Chareacteristics of Soil Development on Volcanic Parent Materials in Barong Tongkok Area East Kalimantan Indonesia	Nagaharu TANAKA	Dec, 1994	4
19	Refort on Tissu Culture of Dipterocarpaceae	Katsuaki ISHI	Feb, 1988	9
20	Characteristic of Element tranfortation Though Water movement in Solum of ferric actisols	Nagaharu TANAKA	Dec 1995	2
21	The research of Soil water Behavier and Soil structure on Slope of Ulitisoils	Nagaharu TANAKA	May, 1988	9
22	Soil under Degraded Ecosystem in East Kalimantan Indonesia	Seichi OHTA	Nop, 1994	6
23	The Tropical Rain Forest Research Development Project at PUSREHUT in Indonesia (The Mammalian Fauna in Bukit Soeharto Projection Forest	Dr.Shigeki YASUMA	Marc1989	9
24	Characteristics of Soils development on Volcanic Parent materials in Barong Tongkok Area, East Kalimantan indonesia	Nagaharu TANAKA	Dec 1994	6
25	A Preliminary Study ofvegetation at Apau Kayan plateau, East Kalimantan Indonesia and Growth of Trees and Forest at Bukit Soeharto East Kalimantan Indonesia in 1993-1994 (Refort of a Shhort-Term Expert)	Yoshiyuki KIYONO	Nop 1994	6
26	The tropical Rain Forest Research Development Project at PUSREHUT, in Samarinda.(The Mammalian Fauna Bukit Soeharto Projection Indonesia	Dr. Shigeki YASUMA	Sep.1987	8
27	Refort on Soil Micromorphology of Acrisoils in Kalimantan Timur	Satoru MIURA	May 1988	6
28	Changes in Forest Structure after Selective Cutting at Kabupaten Pasir	Yuji ISAGI & P.Matius	Dec. 1990	11
29	In Situ Study of Effects of elevated Temperature on Photoinhibition in Eight Tropical Apioneer and Tree	Atsuhi ISHIDA	Sep-Des, 1998	4
30	A Preliminary Research on Amphibians and Areptiles in Bukit Soeharto	Showchi SENGOKU	Dec. 1994	10
31	Scolytid Beetles Fauna and These Vertical Distribution in Bukit Soeharto Experimental Forest, East Kalimantan	Haruo KINUURA	Feb-Marc 1998	4
32	Illustrated Plant List on PUSREHUT	Shigeru TAKAHATA	Aug-oct 1996	4
33	Refort on Tissue Culture of Dipterocarpaceae	Katsuaki ISHI	Feb, 1988	6
34	Soil of lowland Dipterocarp Forest in East Kalimantan Indonesia	Seihi OHTA	Aug 86	3
35	Report on Wildlife Ecology in Bukit Soeharto Protection Forest	Dr. Shigeki YASUMA		7
36	On Measurement of Soil Respiration Report of Short Term Research Cooperation	Kazuhiro MORISADA	March 1991	12
37	Diurnal Leaf Gas Exchange and Chlorophyll Fluorescence in Relation to Leaf Angle, Azimuth, and Position Within the Canopy of a Tropical Pioner Tree	Atsushi ISHIDA	Dec, 1999– Feb 97	4
38	Report of Short Term Research Cooperation in The Field of Forest Pathology on Big Bud	Manabu Kusunoki	Sep. 1992	10

	Disease on Shorea Bracteolata and Parasitic thread Blight of Ulin (<i>Eusideroxylon zwageri</i>)			
39	Forest explotion and succeeding Vegetation in East Kalimantan, Indonesia	Yoshiyuki KIYONO	May, 1994	8
40	Dynamics of Tropical Rain Forest on Bukit Soeharto Experimental Forest of Mulawarman University	Ryuichi WATANABE	Februari 1992	8
41	Characteristic of Soil Under Alang – Alang Grasslands East Kalimantan, Indonesia i. Status of Carbon , Nitrogen and Phosphorus	Selichi OHTA	Nopember, 1992	8
42	Soil Nutrient Status of Different Fallow Period After Swidden Cultivation in Mencimai East Kalimantan Indonesia	Kazuhiro MOROSAD	Dec, 1992	10
43	Alang – Alang (<i>Imperata Cylindrica</i>) grassland – Why have the grasslands existed in and around Bukit Soeharto	Yoshiyuki KIYONO	December , 1995	4
44	Understory Vegation and distribution of seedings and saplings of dipterocarp and Ulin (<i>Eusideroxylon zwageri</i>) in Bukit Soeharto Experimental forest, East Kalimantan, Indonesia	Yoshiyuki KIYONO Paulus Matius	October, 1991	5
45	Flowing and Fruting of Diterocarp in the Bukit Soeharto forest, East Kalimantan, INDONESIA	Yoshiyuki KIYONO	May, 1998	2
46	Suksesi sekunder dan Dinamika Hutan Dipterocarpaceae Dataran rendah Bekas Terbakar	Paulus Matius Yoshiyuki KIYONO	87 /88	8
47	A Preliminary Study of Vegetation at Apau Kayan Plateau, East Kalimantan , Indonesia and Growth of Trees and Forest at Bukit Soeharto East Kalimantan, Indonesia in 1993 – 1994 (9Report of a Short – Term Expert)	Yoshiyuki KIYONO	November , 1994	7
48	Characteristics of Soil under Secondary forests is East Kalimantan, Indonesia I. Status of Carbon, Nitrogen dan Phosphorus	Seichi OHTA	Nov,1994	9
49	Refort on the Tropical Rain Forest Research Project Research Area : I. Landuse Clasification and Planning	Shigeru TAKAHATA	Marc.1987	10
50	Swidden Cultivation in Mencimai, East Kalimantan	Makoto INOUE	Apr,87 – Dec,89	7
51	A Refort on the Tropical Rain Forest Research Project	Iwao JINNAI	Marc. 1987	4
52	Construction of Measurement System for Analyzing Photosynthesis and Transpiration of Trees	Tetsuo OKANO	May, 1990	10
53	Refort on Establisment of Research Forest by Group Planting in Bukit Soeharto University Forest, East Kalimantan Timur	Susumu MYATAKE & Susumu SUZUKI	Dec.1988	11
54	Ectomycorriza of Dipterocarpaceae and the Utilization for Reforestation	Shigeta MORI & Marjenah	Peb, 1994	9
55	Soil Developing on Various Geological Parent materials in Southem part of East Kalimantan	Satoru MIURA	May, 1990	5

56	Water relation and dry matter Partitioning of several Dipterocarp Species Seedlings Growings Under Water Stress	Satoshi ITO	Feb. 1991	4
57	Soil Nutrient Status of Diffrentfallow Period After Swidden Cultivation in mencimai, East Kalimantan	Kazuhito MORISADA	Dec. 1992	10
58	Soil of lowland Dipterocarp Forest in East Kalimantan Indonesia	Seichi OHTA	Aug, 1988	4
59	Dynamic of Tropical Rain Forest on Bukit Soeharto Experimental Forest of mulawarman University (BSEFMU)	Ryuichi WATANABE	Peb, 1992	6
60	Characteristic of Soil Under Secondary Forest is East Kalimantan Indonesia I: Status of Carbon, Nitrigen and Phosphorus	Seichi OHTA	Nov, 1993	7
61	Research on growth responses of Dipterocarp Seedlings to light Intensity, Desication and Germination of Dipterocarp Fruit	Yoshihiko NISHIYAMA	Marc, 1992	5
62	The Tropical Rain Forest Research Development Project at PUSREHUTbin Indonesia	JIBA	Sep, 1987	10
63	The Present Situation of Proboscis Monkeys Nasalis Larvatus Consen with it'sDistribution in and Around the Bukit Soeharto protection Forest	Shigeki YASUMA	Des,1989	8
64	Remote Sensing	Yoshio AWAYA	Sep, 1986	6
65	Research on Regeneration procession Secondary Forest of Tropical Rain Forest, East Kalimantan	Yasuyuki OKIMORI	Marc,1991	7
66	The research refort on repairing of Scanning Electron Migroscope (SEM) and Training of User Maintenance	Ichiro HONGO	Aug, 1986	8
67	Reformt of Short- Term Research cooperation in the Field of Forest Pathology on Big Bud Diseases on Shores bracteolate and Parasitic thread Blight of ULIN (Eusideroxylon Zwageri)	Manabu KUSUNOKI, Djumali Mardji, & Ecep Iskandar	Sep, 1992	7
68	The Smartest Primate of the World : The Day Gibbon Becomes Orangutan	Teriki OKA	Oct,1997	3
69	Influence of severe drought on the leaf gas Exchange and the Canopy Structure of a Tropical Pioneer tree, Macaranga Conofera	Atsushi ISHIDA	Jan-Marc 1998	2
70	Diometer growth rate of Disturbed forest in Bukit Soeharto East Kalimantan, During nine years 1988-1997	Takesi TOMA	Sep. 1997	3
71	Automatic : Retrieval System of Species using the Super Image prosessing Equipment	T.EGUCHI & SUZUKI		8
72	Soil Developing on Various Geological Parent Materials in Soutterm Part of East Kalimantan	Satoru MIURA	May, 1999	7
73	Forest exploitation and Succesdling Vegetation in East Kalimantan Indonesia (Final Refort of a Long-Term Expert)	Yoshiyuki KIYONO	May, 1994	9
